South Asia on Mediumwave and Shortwave

**Guide to radio stations in
South Asia broadcasting on
mediumwave and shortwave**

**including a frequency order list of
mediumwave radio stations in the region**

May 2022

South Asia on Mediumwave and Shortwave

This guide covers mediumwave and shortwave broadcasting in South Asia, as well as target broadcasts to the region.

Contents

- 2-14 Country-order guide to mediumwave and shortwave stations in the South Asia
- 15-22 Selected target broadcasts to South Asia
- 23-27 Frequency-order guide to mediumwave radio stations in the South Asia

Descriptions used in this guide have been taken from radio station websites and Wikipedia.

This guide was last revised on 1 May 2022

Compiled and edited by Tony Rogers

Special thanks to Jose Jacob (DX-India) and Zenon Teles for their continued support.

Afghanistan

Radio Afghanistan

Radio Afghanistan is the Taliban-operated national radio broadcasting station of Afghanistan.

Transmitter site: Kabul (Pol-e-Charkhi) - 400 kW.

Time/UTC	Days	Language	kHz
0030-1930	Daily	Pashto, Dari (and presumably other Afghan languages)	1107

On 15 August 2021, the programme content on 1107 kHz changed to a pro-Taliban format after the Islamist group entered Kabul following the fall of the Ghani-government.

Chris Greenway commented on Twitter on 13 April 2022: "Been a while since I paid attention to the Afghan radio scene. The Taliban run two stations in Kabul: Main national service: Radio Afghanistan; Local station, formerly Radio Kabul, now renamed Voice of Sharia, whose coverage I see is being expanded to other parts of the country."

Shortwave: As early as 2003 it was reported that India had agreed to provide the government of Afghanistan with a new 100 kW shortwave transmitter, and this eventually took to the air when it was inaugurated on 30 July 2011. External Service programmes in English and Urdu were initially broadcast when the station resumed operations from the new transmitter in July 2011, with plans for other languages to be added. However, Radio Afghanistan was not heard on shortwave from late April 2012. A report on "World of Radio" in August 2012 confirmed that Radio Afghanistan had not been heard on shortwave for some time, but it was said that staff were apparently still producing programmes each day (including 30 minutes daily in Arabic and Russian, in addition to those in English and Urdu), even though they were not being broadcast due to the shortwave transmitter being off air. It was reactivated in October 2016 but was irregular and the last known report of Radio Afghanistan on shortwave was in January 2020.

Provincial radio stations on mediumwave

Most Afghan provinces had a mediumwave radio station in the years following the fall of the Taliban in 2001. However, as years went by many may have moved to FM and reports from DXers were few. Should any mediumwave radio stations within Afghanistan be confirmed as still active in future then details will be included here.

Note: to avoid any confusion, a list that was compiled around 2010 for this guide has been removed. A Russian website picked upon the list from 2010 and reproduced it in September 2021 without credit or including the proviso that went with it "This list of provincial government radio stations operating on mediumwave may be out-of-date now, but these were the ones that were believed to be active around 10 years ago. In the intervening time, some may have closed or moved to FM". The list was subsequently reproduced by others without knowing the background ...

The most recent report of an Afghan radio station on mediumwave is: Radio Talwasa: Dave Kernick reported on 10 March 2018 (via DXLD): "New(ish) on mediumwave is Radio Talwasa, based in Sharana, the capital of Afghanistan's Paktika province (thanks to Indian DXer Ck Raman for alerting us to this via the WRTH Facebook group). It broadcasts on 945 kHz & 87.9 MHz FM at 06:00 am to 10:00 pm local time [0130-1730 UTC] according to their website at <http://talwasa.com> & <http://talwasa.af>, although I've observed them signing-on at 1130 UTC on a Friday (9 March 2018); as of 16 August 2021, the website had stories as recent as 13 August 2021, but the live stream linked to a German-language religious talk rather than Radio Talwasa.

USAGM mediumwave transmitters in Afghanistan

The United States Agency for Global Media (USAGM) has several broadcasts for Afghanistan (and Pakistan) on mediumwave and shortwave. These are produced by Voice of America and Radio Free Europe/Radio Liberty. Since the Taliban took control of Kabul on 15 August 2021, the two USAGM mediumwave transmitters located in Afghanistan continue to be on air. These are on 621 kHz (Tani-Khost) and 1296 kHz (Kabul) as per the schedules below.

kHz	Station	Location	kW	Schedule (UTC)
621	IBB Relay	Tani, Khost Province	200	0100-0400 Deewa R (VOA) in Pashto 0400-1300 R Mashaal (RFE/RL) in Pashto 1300-1900 Deewa R (VOA) in Pashto
1296	IBB Relay	Pol-e-Charkhi, Kabul	400	0130-0230 R Ashna (VOA) - Dari 0230-1730 R Azadi (RFE/RL) - Pashto/Dari

Please refer to "[Broadcasting in Afghanistan](#)" for further details of radio services in Afghanistan, as well as a timeline of broadcasting events in the country since the mid-1970's.

Bangladesh

Bangladesh Betar

Bangladesh Betar is the state broadcasting service of Bangladesh.

Bangladesh Betar on mediumwave

kHz	Location	kW	Schedule (UTC)
558	Khulna	100	0030-0400, 0600-1715
630	Savar, Dhaka	100	0300-1300 (Commercial Service)

News in Bengali: 0100, 0300, 0400, 0500, 0600, 0900, 1000, 1200, 1430, 1600, 1700

News in English: 0200, 1100, 1530

SAARC News: 1235 in Bengali; 1520 (Mondays only) in English

Bangladesh Betar Dhaka MW 693 kHz will not resume transmission on 1 May 2022. The renovation work which was scheduled to be completed by 30 April will now continue till 30 June 2022, as notified. (Pradip Kundu via Jose Jacob)

Broadcasting on shortwave

Bangladesh Betar - Home Service

The Bangladesh Betar Home Service has nationwide coverage on mediumwave, shortwave and FM. It appears to be only on air for a limited period of time on shortwave with the External Service using the transmitter from 1230 UTC.

Transmitter Site: Shavar - 100 kW.

Time/Days	Language	kHz	Transmitter site	kW	Az.
unconfirmed	Bengali	4750	Shavar BGD	100	ND

Bangladesh Betar - External Service

Bangladesh Betar's External Service had a new Thomson 250 kW shortwave transmitter and rotatable antenna system installed at Khabirpur in 2012. However, since March 2019, the external service has not been heard on any of its usual shortwave frequencies from Khabirpur and has been observed using the domestic service frequency of 4750 kHz instead.

Time/UTC	Days	Language	kHz	Transmitter site	kW	Az.
1230-1300	Daily	English	4750	Shavar BGD	100	ND
1315-1345	Daily	Nepali	4750	Shavar BGD	100	ND
1400-1430	Daily	Urdu	4750	Shavar BGD	100	ND
1515-1545	Daily	Hindi	4750	Shavar BGD	100	ND
1600-1630	Daily	Arabic	4750	Shavar BGD	100	ND
1630-1730	Daily	Bengali	4750	Shavar BGD	100	ND
1745-1900	Daily	English	4750	Shavar BGD	100	ND
1915-2000	Daily	Bengali	4750	Shavar BGD	100	ND

starts with "Voice of Islam" programme

Bhutan

Bhutan Broadcasting Service

BBS is currently inactive on shortwave. It had broadcast on 6035 kHz daily from 0555 to approximately 1900 local time (0000-1300v UTC), but was last reported by Ron Howard in November 2020.

Diego Garcia

BFBS and AFRTS both operate FM stations on Diego Garcia. All AFRTS mediumwave and shortwave transmitters on Diego Garcia are inactive. AFRTS was last heard on shortwave 4319 kHz in December 2014.

India

All India Radio

All India Radio, officially known as Akashvani, is the radio broadcaster of India and a division of Prasar Bharati (Broadcasting Corporation of India), an autonomous corporation of the Ministry of Information and Broadcasting.

All India Radio services were reduced significantly on 22 March 2020 and the external service suspended due to the Covid-19 pandemic. However, with effect from 15 January 2021, trial transmissions of All India Radio external service were back on three platforms - shortwave, DTH & Live streaming - and regular services are now being restored, but in reduced form (see comments below under External Services).

This guide has been updated to include all current AIR services known to be operating on mediumwave and shortwave, although the situation is constantly changing and this guide may not reflect the very latest schedules (for the latest news, please subscribe to the dxindia iog, which has regular updates from Jose Jacob and Alokesh Gupta, as well as checking the DX India website at <https://www.qsl.net/vu2jos/>)

News from Jose Jacob, 22 January 2022

All India Radio - Bengaluru A 612 kHz from the capital of Karnataka state, India is noted identifying as Akashvani Karnataka! It is as per new policy of AIR to have a single program network for each state (instead of different stations having separate programs) ... Look out for other new state networks of AIR ... Doordarshan TV has been following this policy from the beginning ... Start of a new era by AIR ...

Recordings of Akashvani Karnataka (AIR Bengaluru A 612 kHz) can be heard in the following links:

All India Radio on Shortwave

All India Radio Regional Stations on shortwave

All India Radio regional stations broadcast in Hindi, English and the principal languages of the respective states and Union Territories. As well as programmes originating from regional studios, the regional stations also relay news broadcasts and Network programmes from Delhi. After further closures on 31 December 2021 (namely AIR Srinagar on 4950 & 6110 kHz and AIR Jeypore on 5040 kHz), the last remaining regional station on shortwave is AIR Leh.

Ladakh - AIR Leh

Ladakh is a region administered by India as a union territory, and constitutes a part of the larger Kashmir region, which has been the subject of dispute between India, Pakistan, and China since 1947. It was established on 31 October 2019, following the passage of the Jammu and Kashmir Reorganisation Act. Ladakh is bordered by the Tibet Autonomous Region to the east, the Indian state of Himachal Pradesh to the south, both the Indian-administered union territory of Jammu and Kashmir and the Pakistan-administered Gilgit-Baltistan to the west, and the southwest corner of Xinjiang across the Karakoram Pass in the far north. It extends from the Siachen Glacier in the Karakoram range to the north to the main Great Himalayas to the south. The eastern end, consisting of the uninhabited Aksai Chin plains, is claimed by the Indian Government as part of Ladakh, and has been under Chinese control since 1962.

Transmitter Site: Leh, Ladakh.

Languages: Ladakhi, Hindi, English, Balti, Tibetan, Urdu

All India Radio External Services

All India Radio (AIR), officially known since 1957 as Akashvani (literary meaning "Voice from the Sky"), is the national public radio broadcaster of India and is a division of Prasar Bharati. The external services of All India Radio are broadcast to countries outside India and some continue on mediumwave and shortwave.

The General Overseas Service in English has been discontinued on shortwave.

The All India Radio Maitree channel features Akashvani news, talk programmes, current affairs, world news and airs Bangla songs and Bangla talk programmes.

Home Service and other languages may be heard briefly for 10 minutes or so prior to the start of some of the scheduled External Services languages.

Maldives

Public Services Media is the public broadcasting service of the Maldives. It replaced the Maldives Broadcasting Corporation on 28 April 2015. PSM operates two radio stations, Dhivehiraajjeyge Adu and Dhivehi FM. Shortwave transmissions to Maldavian communities in South Asia were discontinued several years ago when TV Maldives appeared on satellite.

Dhivehiraajjeyge Adu (Voice of the Maldives)

Dhivehiraajjeyge Adu is the premier radio channel of PSM. As a public service broadcaster, the channel's content is based on educating, informing and entertaining listeners. It operates on MW 1449 kHz and FM 89.0.

Transmitter Site: Malé - 10 kW.

Schedule	Days	Languages	kHz	Notes
24 hours	Daily	Dhivehi/English	1449	News in English is schedule at 1300-1310 UTC

Target broadcast to the Maldives

Voice of the Martyrs

VOM Korea has started a daily broadcast to the Maldives. VOM states "The Maldives is one of the most restricted nations in the world, with fewer than 10 known believers. Any Maldivian who follows Christ must remain secret or face arrest or expulsion from the country. The Maldivian government seeks to eliminate or greatly minimize outside influences on their cultural identity, which includes complete commitment to Islam". It goes on to say that "VOM uses creative, secretive methods to share the gospel inside the Maldives". In an email to Glenn Hauser, Pastor Tim Dillmuth confirms the new broadcast to the Maldives and says "It is currently in English, but we hope to have more and more content in Dhivehi shortly. Due to our agreement with our radio broadcast partner, we are unable to share the location of the transmission."

Transmitter Site: unconfirmed.

Schedule	Days	Languages	kHz
1500-1530	Daily	English and Dhivehi	11620

The Voice of the Martyrs noted in Dhivehi for the first time on 28 April 2022 by Jose Jacob. Previously it was in English.

Jose Jacob got a reply for a reception report sent to VOM Korea on their new broadcast to Maldives on 11620 kHz at 1500-1530 UTC, as well as a QSL letter from Pastor Tim Dillmuth (Thanks to Jose for permission to reproduce here):

From: Mr. Joo <sjoo@vomkorea.com>
Sent: Thursday, April 14, 2022 10:01 AM
To: vu2jos@niar.org
Subject: RE : Your broadcast to Maldives

Dear Jose Jacob,

Thank you for listening our broadcasts. This is actually a brand-new broadcast that is intended to reach the Maldives. The broadcast is indeed in English for now, but we hope to have more and more content in Dhivehi shortly.

Warmly in Christ, VOMKOREAMJ

Jose Jacob <vu2jos@niar.org>

Mr. Jose Jacob,

I am pleased to provide you with a confirmation of your reception report. I confirm that Mr. Jose Jacob our program on Apr, 12th, 2022 on 11620 kHz at 15:30 UTC.

Thank you for taking the time to listen to our program and for taking the time to provide us with your report.

If you would like to learn more about more about The Voice of the Martyrs Korea, please visit our web-site at <http://www.vomkorea.com/>.

God Bless,

Pastor Tim Dillmuth
tdillmuth@vomkorea.com

Nepal

Radio Nepal

Radio Nepal is the state-owned radio broadcasting service of Nepal. It broadcasts of mediumwave and FM, whilst the shortwave transmission (most recently on 5005 kHz) has been discontinued.

kHz	Location	kW
576	Surkhet, Mid-Western Region	100

Pakistan

Pakistan Broadcasting Corporation

The Ministry of Information and Broadcasting says "Pakistan Broadcasting Corporation (PBC) popularly known as Radio Pakistan is the largest state media network of Pakistan with about 80 broadcasting units housed in 32 Broadcasting Houses across the country. Radio Pakistan through its multi-pronged broadcast platforms like FM, mediumwave, shortwave and through satellite broadcasts is able to reach out to its listeners inside and outside the country in an unprecedented manner".

Radio Pakistan has programming mainly in Urdu and English, with provincial stations also broadcasting news and other programmes in their regional languages as well. News in English is at 0300, 0800, 1100, 1300 and 1600 UTC.

News and Current Affairs Channel

PBC launched its News and Current Affairs Channel (NCAC) in November 2000. The channel was converted into the National Broadcasting Service in 2008 with current affairs contents mixed with entertainment and cultural programmes. The News & Current Affairs Channel was revived in 2013. Presently, NCAC broadcasts 13 hours of programmes from 0300-1600 UTC from Islamabad and 8 hours daily from Provincial Headquarters. Programmes consist of breaking news, hourly news bulletins, live coverage of important events including press conferences by government and opposition, talk shows, discussions/interactive discussions, commentaries, interviews, live calls and on the spot coverage. NCAC frequencies are listed on the PBC website as 639, 756, 1152, 1170 and 1332 kHz. The daily schedule for NCAC can be checked at radio.gov.pk/current-affairs

Radio School transmission

Radio Pakistan has a four-hour Radio School transmission to promote distant learning in the country. These educational programmes are broadcast from various mediumwave and FM networks of Radio Pakistan from 0500-0700 UTC and then as a repeat broadcast from 0900-1100 UTC seven days a week. Radio School is an important initiative taken in light of Prime Minister Imran Khan's vision to impart education to the children of far flung and backward areas and address the issue of providing education to children during the pandemic. It will also help ensure provision of education to less privileged children and girls. Radio School is aired on mediumwave on 567, 585, 711, 981, 1053, 1134 and 1251 kHz. (radio.gov.pk, 25 November 2020)

The status of the Voice of Qur'an programme on mediumwave is subject to confirmation. It had previously been listed on 585, 630 and 756 kHz between 0200-0700 UTC. Can anyone confirm that it is still aired on mediumwave at all?

Radio Pakistan - External Services

Radio Pakistan shortwave transmissions are currently suspended. The Ministry of Information and Broadcasting website currently says: "World and External services broadcasts programs for six hours daily in six foreign languages and designed to cover Asia. These languages are Persian, Dari, Bangla, Chinese, Pashto (Afghani), Hindi, Hazargi. Presently these programmes are streamed only and also available on the Mobile App. World Service broadcasts programs for 8 hours in Urdu language for Overseas Pakistanis in Middle East and Europe".

Azad Kashmir Radio

The Pakistan Broadcasting Corporation broadcasts a dedicated Kashmir-focused service from its three stations; i.e. Muzaffarabad, Trarkhal and Mirpur "to highlight the World-level & UN recognised right of self-determination of Kashmiri people, atrocities committed by the Indian forces in the Indian Illegally Occupied Jammu & Kashmir (IIOJ&K), resilient struggle offered by the Kashmiri people and Pakistan's principled stance, on the issue to the Kashmir cause to support morally, politically and diplomatically".

kHz	Channel	Transmitter location	kW	Programme/Schedule (UTC)
792	Muzaffarabad	Muzaffarabad	150	currently off air. The moib.gov.pk website says: "Work on the PSDP project "Rehabilitation of Medium Wave Services from Muzaffarabad (AJK)" has been initiated. The construction of the building of the transmitting station has been completed by PWD Muzaffarabad.
936	Mirpur	Mirpur, Mirpur District	100	to be confirmed but includes content in Gojri, Kashmiri, Pahari and Urdu; also includes relays from NCAC; news in English is believed to be at 0300, 0800, 1100, 1300, 1600
7265	Trarkhel	Islamabad, Pakistan	100	0900-0945 (and possibly other times?); in the past has consisted of relays of PBC Rawalpindi III in Urdu and content from Radio Pakistan.

Azad Kashmir Radio heard on shortwave again!: Wolfgang Bueschel reported on 4 October 2021: Surprisingly after a very long break time, I heard Azad Kashmir Radio Urdu/Kashmiri language service on 7264.94 from Islamabad Rewat center today at 0905 UTC via the remote Perseus server in Delhi. S=7-8 fair signal, 100 kW and other details visible according WRTH 2021 on page 307. (posted by WB to BDXC iog); Presumed Azad Kashmir Radio observed on 5 October 2021 from 0900-0945* on 7265 kHz using online KiwiSDR at Multan, Pakistan. (monitoring by Tony Rogers)

Sri Lanka

Sri Lanka Broadcasting Corporation

Sri Lanka Broadcasting Corporation is the public broadcasting service of Sri Lanka. SLBC operates on shortwave are directed to South Asia and to the large expatriate community in the Middle East.

Transmitter Site: Transmissions originate from Trincomalee, which has 3 x 250 kW transmitters (operated at 125 kW).

Encompass to use Trincomalee: Sri Lanka has agreed to sell airtime on a former Deutsche Welle relay station in Trincomalee in the north east of the island to UK based Encompass Digital Media Services, London. Germany's DW built the relay station in Sri Lanka in 1980 for mainly for international shortwave (HF) broadcasting. It also has a medium wave transmitter for South Asia. The station was given to state-run Sri Lanka Broadcasting Corporation in 2012. London based Encompass Media has proposed to transmit shortwave and mediumwave programmes from the station. It has offered to pay \$49,000 and \$16,000 dollars a month for the airtime. The Cabinet of Ministers had approved the proposal in November 2020. (Economynext.com 29 December 2020 via Alokesh Gupta)

China

China Radio International

China Radio International (CRI) is the state-owned international radio broadcaster of China. Transmissions in several languages now consist of music only - there is no actual programming. To identify these easily a content column has been added below (C.) with P indicating normal programmes and M for music only.
